

Noise
Install

Mr. Bill D'Andrea
DeBell Window Systems
28 Hardy Way
Sparks, NV 89431

Dear Mr. D'Andrea:

I wanted you to know how pleased we are with our new windows. They look so much larger than the ones we had before. It makes the whole house look nicer, inside and out.

We still have your sign in our front yard, and many of our neighbors and friends passing by think we have our home up for sale. I have given your card to two people, both with the same kind of windows we had before. I hope they will see the advantage of the DeBell Window. We feel that the value of our home has just gone up by \$6,500.

We would like to comment on the courteous and professional attitude you installer has. Both Bob and Pete were very courteous and caring about the way they proceeded with their work. I never heard one word of profanity while they were doing their jobs. This I find very uplifting in this day of the common use of profanity in our society.

I would highly recommend your company to anyone wanting to know first hand about the DeBell window.

One more thing is the noise factor. We live on a busy street and when the windows are closed you can't even hear the cars going by.

Sincerely,

Charles & Lois Hill
